Objective

The Company's investment objective is to achieve long-term capital growth by investment in a diversified portfolio consisting of around 50 individual holdings which will be mainly UK-quoted smaller companies. The Company borrows in order to purchase assets, and this may magnify any gains or losses.

The Directors have set additional guidelines in order to reduce the risk borne by the portfolio:

- Companies with a market capitalisation of below GBP50m should not represent more than 5% of total assets.
- Companies involved in 'Blue Sky' products should not represent more than 5% of total assets.
- No more than 50% of the portfolio can be invested in companies that are constituents of the FTSE AIM Index.
