

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

abrdn Global Balanced Growth Fund, a Sterling denominated sub fund of the abrdn OEIC II, Institutional Inc Shares (ISIN: GB0004331566). This fund is managed by abrdn Fund Managers Limited..

OBJECTIVES AND INVESTMENT POLICY

Investment Objective

To generate growth over the long term (5 years or more) by investing in a diversified portfolio of assets.

Invested capital is however at risk and there is no guarantee that this will be attained over any time period.

Performance Comparator: IA Mixed Investment 40%-85% Shares sector average.

Funds in this Sector are required to have a different range of investments. However, they must have between 40%-85% in shares in companies. The ACD believes this is an appropriate comparator for the fund based on the investment policy of the fund and the constituents of the sector.

Investment Policy

Portfolio Securities

- The fund will invest at least 70% in global equities, corporate investment grade bonds and government bonds issued anywhere in the world (including in emerging markets) either directly or indirectly.

- The fund will invest in assets that are both actively and passively managed.

- The fund may hold other securities (e.g. investment trusts, sub-investment grade (high yield) bonds, supranational and other types of bonds, commodities and listed real estate) issued anywhere in the world (including in emerging markets) either directly or indirectly.

- The fund may invest up to 85% of its assets in global equities.

- The fund may also invest in other funds (including those managed by Aberdeen Investments) and money-market instruments, and cash.

Management Process

- The management team use their discretion (active management) to select individual holdings depending on their growth prospects and/or creditworthiness relative to market expectations, given future economic and business conditions.

- The investment approach considers the macroeconomic climate along with using systematic analysis of economic data and price trends to inform portfolio construction.

- The fund will maintain a stable core allocation to equities and bonds, combined with more dynamic allocations to a diversified range of asset types, including commodities and currencies, based on opportunities identified by the management team.

- The fund will be subject to constraints which are intended to manage risk captured within the portfolio securities. The constraints may vary over time, and due to the active nature of the management process the fund's performance profile may deviate significantly from that of the average fund of the IA's Mixed Investment 40%-85% Shares sector average.

Derivatives and Techniques

- The fund will make routine use of derivatives to express short-term views reflecting expected changes in interest rates, company share prices, inflation, currencies or creditworthiness of corporations or governments.

- Derivatives are linked to the value of other assets. In other words, they derive their price from one or more underlying asset. They can generate returns when the value of these underlying assets rise (long positions) or fall (short positions).

- The fund may also invest in other funds which may use derivatives extensively although these investments shall be in line with fund's overall risk profile.

Investors in the fund may buy and sell shares on any dealing day (as defined in the Prospectus).

If you invest in income shares, income from investments in the fund will be paid out to you. If you invest in accumulation shares, income will be added to the value of your shares.

Recommendation: the Fund may not be appropriate for investors who plan to withdraw their money within five years. Investors should satisfy themselves that their attitude to risk aligns with the risk profile of this fund before investing.

RISK AND REWARD PROFILE

This indicator reflects the volatility of the fund's share price over the last five years which in turn reflects the volatility of the underlying assets in which the fund invests. Historical data may not be a reliable indication for the future.

The current rating is not guaranteed and may change if the volatility of the assets in which the fund invests changes. The lowest rating does not mean risk free.

The fund is rated as 4 because of the extent to which the following risk factors apply:

- **Equity Risk** - The fund invests in equity and equity related securities. These are sensitive to variations in the stock markets which can be volatile and change substantially in short periods of time.
- **Emerging Markets Risk** - The fund may invest in emerging markets, where political, economic, legal and regulatory systems are less developed. As a result, investing in emerging markets may involve higher volatility and a greater risk of loss than investing in developed markets. In particular, where the fund invests in Variable Interest Entity (VIE) structures to gain exposure to industries with foreign ownership restrictions or invests in Chinese assets via Stock Connect / Bond Connect, there are additional operational risks, which are outlined in the prospectus.
- **Credit Risk** - The fund invests in securities which are subject to the risk that the issuer may default on interest or capital payments.

- **Interest Rate Risk** - The fund invests in securities which can be subject to price fluctuation for a variety of reasons including changes in interest rates or inflation expectations.
- **High Yield Credit Risk** - The fund invests in high yield bonds which typically carry a greater risk of default than those with lower yields.
- **Derivatives Risk** - The use of derivatives may involve additional liquidity, credit and counterparty risks and may lead to substantial loss and increased volatility in adverse market conditions. The use of derivatives may result in the fund being leveraged (where market exposure and thus the potential for loss by the fund exceeds the amount it has invested) and in these market conditions the effect of leverage will be to magnify losses.

All investment involves risk. This fund offers no guarantee against loss or that the fund's objective will be attained.

The price of assets and the income from them may go down as well as up and cannot be guaranteed; an investor may receive back less than their original investment.

Inflation reduces the buying power of your investment and income.

The value of assets held in the fund may rise and fall as a result of exchange rate fluctuations.

The fund could lose money if an entity (counterparty) with which it does business becomes unwilling or unable to honour its obligations to the fund.

In extreme market conditions some securities may become hard to value or sell at a desired price. This could affect the fund's ability to meet redemptions in a timely manner.

The fund could lose money as the result of a failure or delay in operational processes and systems including but not limited to third party providers failing or going into administration.

CHARGES

The charges you pay are used to pay the costs of running the fund including marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the fund over a year

Ongoing charges	0.65%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	0.00%
-----------------	-------

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The Ongoing Charges figure reflects the amount based on the expenses within the annual report for each financial year. This figure may vary from year to year. It excludes: performance fees (where applicable); portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling in another collective investment undertaking.

Where the Fund invests in an open-ended collective investment scheme which is operated or managed by the ACD/the Manager or an associate of the ACD/the Manager, no additional annual management charge will be incurred by the Fund on such an investment.

The annual report for each financial year will include detail on the exact charges made.

The Ongoing Charge figure is as at 28/02/2025.

A switching charge may be applied in accordance with the Prospectus. For more information about charges please see Prospectus.

Further information on the charges can be found in the Prospectus.

PAST PERFORMANCE

abrdrn Global Balanced Growth Fund, Institutional Inc Shares, 31 December 2025

Past performance is not a guide to future performance.

Performance is net of charges and does not take into account any entry, exit or switching charges but does take into account the ongoing charge, as shown in the Charges section.

Performance is calculated in GBP.

The fund was launched in 1990. The share/unit class was launched on 1998.

Performance Comparator - IA Mixed Investment 40-85% Shares Sector Average

PRACTICAL INFORMATION

Name of Depositary: Citibank UK Limited, Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB.

Further information about abrdrn OEIC II (Prospectus, report & accounts) can be found at www.abrdrn.com, where documents may be obtained free of charge.

Other practical information (e.g. where to find latest share prices) can be found in documents held at www.abrdrn.com.

Details of the up to date remuneration policy which includes a description of how remuneration and benefits are calculated, the identities of the persons responsible for awarding remuneration and benefits and the composition of the remuneration committee, are available at www.abrdrn.com and a paper copy will be available free of charge upon request from abrdrn Fund Managers Limited. Prospective investors should consult their own professional advisers on the potential tax consequences of acquiring, holding or selling shares.

abrdrn Fund Managers Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the abrdrn OEIC II.

Other share classes are available in the fund and further information about these can be found in the abrdrn OEIC II Prospectus.

abrdrn OEIC II is an umbrella structure comprising a number of different sub funds, one of which is this fund.

This document is specific to the fund and share class stated at the beginning of this document. However, the Prospectus, annual and half-yearly reports are prepared for the entire umbrella.

The assets of a sub fund within the umbrella belong exclusively to that sub fund and shall not be used or made available to discharge (directly or indirectly) the liabilities of, or claims against, any other person or body including abrdrn OEIC II and any other sub fund. Any liability incurred on behalf of or attributable to any sub fund shall be discharged solely out of the assets of that sub fund.

Investors may switch their shares in the fund for shares in another sub fund within the abrdrn OEIC II. For further information please refer to the prospectus (section on 'Switching') which can be found at www.abrdrn.com.
