

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

abrdn Global Sustainable Equity Fund, a Sterling denominated sub fund of the abrdn OEIC I, I Acc Shares (ISIN: GB0006833932). This fund is managed by abrdn Fund Managers Limited..

OBJECTIVES AND INVESTMENT POLICY

Investment Objective

To generate growth over the long term (5 years or more) by investing in global equities (company shares) that manage adverse environmental impacts and promote societal welfare in one or more of the four thematic areas of - climate change, the environment, labour management, and human rights & stakeholders, through their business operations OR their products and services.

To align with this sustainability objective companies must demonstrate they are positively addressing one or more of the thematic areas, assessed against either the:

(i) revenue from or investment budget directed to, products and services that contribute to:

- climate change - through renewable energy, or sustainable real estate and infrastructure development; or
- environment - through circular economy practices, sustainable food & agriculture, or access to water & sanitation; or
- labour management - through educational and employment initiatives; or
- human rights & stakeholders - through health and social care, or financial inclusions; or

(ii) sustainability of business operations in accordance with the Aberdeen Investments Operational Sustainability Score. This score takes into account a variety of data inputs related to the four thematic areas of climate change, environment, labour management, and human rights & stakeholders to identify companies that are addressing adverse environmental impacts and promoting societal welfare.

Performance Target: To achieve a return in excess of the MSCI AC World Index over rolling five-year periods (after charges). The Performance Target is the level of performance that the management team hopes to achieve for the fund. There is no certainty or promise that the Performance Target will be achieved. Applying sustainability criteria in the investment process may result in the exclusion of securities within the fund's universe of potential investments and therefore may have a bearing on the fund's return profile.

The MSCI AC World Index (the "Index") is a representative index of world stock markets.

Investment Policy

Portfolio Securities

- The fund invests at least 70% in global equities.
- Up to 20% of the fund's investments may not align with the sustainability objective provided that they do not conflict with it, assessed against the exclusionary screens and a minimum Operational Sustainability Score of 40.
- Aberdeen Investments applies a set of company exclusionary screens which are related to UN Global Compact, State Owned Enterprises, Weapons, Tobacco, Gambling, Thermal Coal, Oil & Gas and Electricity Generation.
- More detail on the Aberdeen Investments Sustainable Investment Equity Approach, including exclusionary screening criteria, can be found in the Prospectus.

RISK AND REWARD PROFILE

This indicator reflects the volatility of the fund's share price over the last five years which in turn reflects the volatility of the underlying assets in which the fund invests. Historical data may not be a reliable indication for the future.

The current rating is not guaranteed and may change if the volatility of the assets in which the fund invests changes. The lowest rating does not mean risk free.

The fund is rated as 5 because of the extent to which the following risk factors apply:

- **Equity Risk** - The fund invests in equity and equity related securities. These are sensitive to variations in the stock markets which can be volatile and change substantially in short periods of time.
- **ESG Investment Risk** - Applying ESG and sustainability criteria in the investment process may result in the exclusion of securities within the fund's benchmark or universe of potential investments. The interpretation of ESG and sustainability criteria is subjective meaning that the fund may invest in assets which similar funds do not (and thus perform differently) and which may not align with the personal views of any individual investor.
- **Emerging Markets Risk** - The fund may invest in emerging markets, where political, economic, legal and regulatory systems are less developed. As a result, investing in emerging markets may involve higher volatility and a

- The fund may also invest in other funds (including those managed by Aberdeen Investments), cash and assets that can be turned into cash quickly.

Management Process

- The management team use their discretion (active management) to maintain a diverse asset mix at country, sector and company level.
- Their primary focus is on selecting companies using research techniques to select individual holdings. The research process is focused on finding attractive high-quality companies that can be held for the long term through the assessment of their business, the industry they operate in, their financial strength, the capability of their management team, and sustainability characteristics.
- For a company to meet the fund's sustainability objective, either:
 - 1) at least 20% of their revenues or investment budget must be related to products or services that positively contribute to either climate change, the environment, labour management, or human rights and stakeholders (as outlined above) ("Companies with Sustainable Products"); or
 - 2) the company's business operations, as assessed by the Aberdeen Investments Operational Sustainability Score, must meet the minimum threshold of 60 out of 100 ("Operationally Sustainable Companies").
- The threshold for Companies with Sustainable Products is reflective of companies demonstrating strategic intent and the threshold for Operationally Sustainable Companies is reflective of companies that effectively manage and address adverse environmental impacts and promote societal welfare.
- Due to the active and sustainable nature of management process the fund's performance profile may deviate significantly from that of the Index.

Derivatives and Techniques

- Derivatives are linked to the value of other assets. In other words, they derive their price from one or more underlying asset.
- Derivative usage in the fund is expected to be very limited. Where derivatives are used, this would mainly be in response to significant inflows into the fund so that in these instances, cash can be invested while maintaining the fund's existing allocations to equities.

Investors in the fund may buy and sell shares on any dealing day (as defined in the Prospectus).

If you invest in income shares, income from investments in the fund will be paid out to you. If you invest in accumulation shares, income will be added to the value of your shares.

Recommendation: the Fund may not be appropriate for investors who plan to withdraw their money within five years. Investors should satisfy themselves that their attitude to risk aligns with the risk profile of this fund before investing.

greater risk of loss than investing in developed markets. In particular, where the fund invests in Variable Interest Entity (VIE) structures to gain exposure to industries with foreign ownership restrictions or invests in Chinese assets via Stock Connect / Bond Connect, there are additional operational risks, which are outlined in the prospectus.

- **Derivatives Risk** - The use of derivatives may involve additional liquidity, credit and counterparty risks. In some cases the risk of loss from derivatives may be increased where a small change in the value of the underlying investment may have a larger impact on the value of the derivative.

All investment involves risk. This fund offers no guarantee against loss or that the fund's objective will be attained.

The price of assets and the income from them may go down as well as up and cannot be guaranteed; an investor may receive back less than their original investment.

Inflation reduces the buying power of your investment and income.

The value of assets held in the fund may rise and fall as a result of exchange rate fluctuations.

The fund could lose money if an entity (counterparty) with which it does business becomes unwilling or unable to honour its obligations to the fund.

In extreme market conditions some securities may become hard to value or sell at a desired price. This could affect the fund's ability to meet redemptions in a timely manner.

The fund could lose money as the result of a failure or delay in operational processes and systems including but not limited to third party providers failing or going into administration.

CHARGES

The charges you pay are used to pay the costs of running the fund including marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the fund over a year

Ongoing charges	0.84%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	0.00%
-----------------	-------

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The Ongoing Charges figure reflects the amount based on the expenses within the annual report for each financial year. This figure may vary from year to year. It excludes: performance fees (where applicable); portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling in another collective investment undertaking.

Where the Fund invests in an open-ended collective investment scheme which is operated or managed by the ACD/the Manager or an associate of the ACD/the Manager, no additional annual management charge will be incurred by the Fund on such an investment.

The annual report for each financial year will include detail on the exact charges made.

The Ongoing Charge figure is as at 31/07/2025.

A switching charge may be applied in accordance with the Prospectus. For more information about charges please see Prospectus.

Further information on the charges can be found in the Prospectus.

PAST PERFORMANCE

abrdrn Global Sustainable Equity Fund, I Acc Shares, 31 December 2025

Performance is net of charges and does not take into account any entry, exit or switching charges but does take into account the ongoing charge, as shown in the Charges section.
