WHAT HAPPENS IF BARING INTERNATIONAL FUND MANAGERS (IRELAND) LIMITED IS UNABLE TO PAY OUT?

The assets of the Fund are segregated from those of Baring International Fund Managers (Ireland) Limited. The Depositary is responsible for the safekeeping of the Fund's assets. To that effect, if Baring International Fund Managers (Ireland) Limited defaults, there will be no direct financial impact on the Fund. In addition, the Fund's assets shall be segregated from the Depositary's assets, which limits the risk of the Fund suffering some loss in case of default of the Depositary. You may face a financial loss if your broker or the entity from whom you purchased the Fund was to default.

As an investor in the Fund, there is no compensation or guarantee scheme in place.

We have classified this product as class 5 out of 7, which is a medium-high risk class.

This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity of the fund to pay you.

In addition to market risk other risks could be triggered i.e. counterparty risk, currency risk, interest rate risk, operational risk and liquidity risk. Refer to the Prospectus for full details.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.
