a sub fund of Guinness Asset Management Funds plc
The Fund is managed by Waystone Management Company (IE) Limited.

Class Y EUR Dist (ISIN: IE000TOKG502)

Objective & Investment Policy

Objective

The investment objective of the Fund is to provide investors with both income and long-term capital appreciation.

Investment Policy

The Fund intends to invest in a portfolio of primarily global (which may include emerging markets) equity securities, issued by companies deriving a significant proportion of their business (at least 50% of revenues) from the financing, development, construction and operation of real assets including infrastructure and real estate. The Fund will not invest in infrastructure or real estate directly.

Essential features of the Fund

The infrastructure companies the Fund invests in may be organised as corporates, listed closed-end vehicles or other structures traded on a Recognised Exchange and will generate a majority of their revenues from assets active in sectors including utilities, transportation, communications and energy.

The real estate companies the Fund invests in will primarily be Real Estate Investment Trusts (REITs) that are traded on a Recognised Exchange.

The Fund intends to invest primarily in companies which pay dividends, but may invest in companies which do not pay dividends.

Under normal market conditions the Fund intends to invest in 30-40 stocks, with as little as 20 stocks outside normal market conditions.

The Fund is considered to be actively managed in reference to the MSCI World Core Infrastructure (the “Benchmark”) It uses the Benchmark solely for performance comparison purposes.

Derivatives (a contract the value of which depends on the value of one or more underlying assets) may be used to manage the risk profile of the Fund, reduce cost or generate additional capital or income. Currency hedging arrangements may be used to reduce the risk of currency movements in the value of overseas investments held by the Fund.

You may sell your investment on any working day in Ireland and the UK.

Any income the Fund receives will be paid out to investors twice a year.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within five years.

Risk and Reward Profile

This indicator shows how much a fund has risen and fallen in the past, and therefore how much a fund's returns have varied. It is a measure of a fund's volatility. The higher a fund's past volatility the higher the number on the scale and the greater the risk that investors in that fund may have made losses as well as gains. The lowest number on the scale does not mean that a fund is risk free.

The Fund has been classed as 5 because its volatility has been measured as above average.

This indicator is based on historical data and may not be a reliable indication of the future risk profile of this Fund.

The risk and reward profile shown is not guaranteed to remain the same and may shift over time.

Please note that even Funds with the lowest rank may lose you money.

In addition to the level of risk shown by the indicator, there are other risks associated with this Fund, as detailed below:
