WHAT IS THIS PRODUCT?

Type

This product is a sub-fund of Artemis Funds (Lux), an open-ended investment company (société d'investissement à capital variable "SICAV") organised under the laws of the Grand Duchy of Luxembourg. The fund qualifies as an undertaking for collective investment in transferable securities (UCITs).

Term

This product has no fixed maturity date. An investor can hold their investment for any time period but 5 years is the recommended holding period. The board of directors of the SICAV has the authority to decide on the merger, split, liquidation or the closure of the product, with adequate notice to investors. Furthermore, the product may be wound up by decision of an extraordinary general meeting of shareholders.

Objective

To increase the value of shareholders' investments primarily through capital growth.

Investment policy

The fund is actively managed.

The fund invests principally in equities of companies that are listed on a recognised stock exchange in the USA. Typically these are companies with a market capitalisation of less than \$10bn at the time of purchase.

At times the fund may invest in equities of companies of equivalent size that are headquartered or that exercise the predominant part of their economic activities in the USA, but which are listed on a regulated stock exchange outside the USA.

Shares in the following types of companies (held either directly or indirectly via derivatives) are automatically excluded:

- Tobacco: companies which derive more than 5% revenue from tobacco production;
- Weapons: companies:
 - involved in the production of controversial weapons (including cluster munitions, landmines, biological and chemical weapons); or
 - which derive more than 10% revenue from conventional or nuclear weapons, related components and systems; or
 - which derive more than 10% revenue from manufacture or sale of civilian firearms or ammunition;
- Coal: companies which derive more than 5% revenue from mining or sale of thermal coal;
- Companies that the Investment Manager determines to be in breach of the United Nations Global Compact principles on human rights, labour rights, the environment and anti-corruption.

The fund promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR. The Investment Manager seeks to decrease the fund's exposure to climate risk and benefit from the opportunities associated with the transition to a net-zero emissions economy through investing in companies which are actively managing their carbon exposure and setting meaningful targets. Further information is contained in a methodology statement available on the Artemis website at www.artemisfunds.com/methodology-statement.

The evaluation of environmental, social and governance factors is determined by the Investment Manager using information provided by the companies (for example company sustainability reports) and third-party data, focusing on scores and metrics which that the Investment Manager considers to be relevant.

More information about the environmental or social characteristics for this fund is available in the pre-contractual disclosure for financial products referred to in Article 8 under SFDR in the fund's prospectus.

The fund may use derivatives and other techniques for hedging and for efficient portfolio management. The fund's derivatives may include, but are not limited to, futures and forward currency contracts.

Subject to the limits set out in the 'Investment Restrictions' section of the fund's prospectus, the fund may also hold ancillary liquid assets for treasury purposes. Subject to the limits set out in the 'Investment Restrictions' section of the fund's prospectus, the fund may also invest in bank deposits, money market instruments and money market funds in order to achieve its investment goals, for treasury purposes and in case of unfavourable market conditions.

The fund may invest up to 10% of its Net Asset Value in other collective investment schemes.

Benchmark: Russell 2000 NR EUR

The benchmark is a point of reference against which the performance of the fund may be measured. Management of the fund is not restricted by this benchmark. The deviation from the benchmark may be significant and the portfolio of the fund may at times bear little or no resemblance to its benchmark.

The benchmark does not take into account environmental and/or social characteristics promoted by the fund.

Intended retail investor

This product is intended for retail, professional and institutional investors who are willing to invest for the long-term and who plan to stay invested for at least 5 years. Investors should be prepared to take on a relatively high level of risk of loss to their original capital in order to get a higher potential return. This investment should form part of a varied portfolio, it is suitable for general sale to retail and professional investors through all distribution channels with or without professional advice.

Depository

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

- The actual risk can vary significantly if you cash in at an early stage and you may get back less.
- The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

- We have classified this product as class 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity of the fund to pay you.
- **Be aware of currency risk.** You may receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
- Other materially relevant risks for the fund are: Market volatility risk, Currency risk, Charges from capital risk, Smaller companies risk and ESG risk. Please refer to the fund's prospectus, available at www.artemisfunds.com/literature, for full details of these and other risks which are applicable to this fund.

Risk indicator number is accurate as at: 31 January 2025.

PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and its suitable benchmark over the last 10 years. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. Markets could develop very differently in the future.

Recommended holding period: 5 years Example investment: 10,000 EUR			
Scenarios			
Minimum: There is no minimum guaranteed return. You could lose some or all of your investment.		If you exit after 1 year	If you exit after 5 years

Performance scenarios are accurate as at: 31 January 2025.
The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.
The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

Unfavourable: This type of scenario occurred for an investment between 11/2021 and 01/2025.
Moderate: This type of scenario occurred for an investment between 11/2017 and 10/2022.
Favourable: This type of scenario occurred for an investment between 05/2016 and 04/2021.

WHAT HAPPENS IF FUNDROCK MANAGEMENT COMPANY S.A. IS UNABLE TO PAY OUT?

The Management Company is responsible for administration and management of the Fund, and does not typically hold assets of the Fund (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Management Company, as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Fund or the depositary is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any, of this loss.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000.00 EUR is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	96 EUR	844 EUR
Annual cost impact *	0.96 %	1.07 %

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.59% before costs and 11.53% after costs.
