What is this product?

Type

China A Share Sustainable Equity Fund (the "Fund") is a US Dollar denominated sub-fund of a SICAV (société d'investissement à capital variable), abrdn SICAV I, incorporated in Luxembourg.

Term

abrdn SICAV I (the "Company") has no maturity date. The Fund and the Company may not be unilaterally terminated by abrdn Investments Luxembourg S.A.

Objective

The Fund aims to achieve a combination of growth and income by investing in companies listed on Chinese stock exchanges, which adhere to the Fund's sustainability criteria.
The Fund aims to outperform the MSCI China A Onshore Index (USD) benchmark before charges.

Portfolio Securities

- The Fund invests directly or indirectly (including through QFI, the Shanghai-Hong Kong Stock Connect programme, participatory notes, equity linked notes and any other eligible means) at least 90% in shares of companies whose securities are listed on Chinese Stock Exchanges, including, without limitation, China A-Shares and B-Shares of companies listed on the Chinese Stock Exchanges and corresponding H-Shares or other equivalent securities authorised by the CSRC for purchase by non-Chinese investors.
- All equity and equity-related securities will adhere to the Fund's sustainability criteria detailed in the Fund's "Sustainability related disclosures", which is published at www.aberdeeninvestments.com under "Fund Centre".
- Aberdeen Investments' Overall Sustainability Assessment (OSA) provides an overall view on a company's sustainability based on scoring of its governance, operations, and products and/or services. To complement this the Investment Manager's equity investment process is utilised, which enables portfolio managers to qualitatively identify sustainable leaders and improvers. Companies considered to be exposed to the highest ESG risks will be excluded. Additionally, a set of company exclusions are applied which are related to the UN Global Compact, Norges Bank Investment Management (NBIM), Weapons, Tobacco, Gambling, Thermal Coal, Oil & Gas and Electricity Generation.
- The Fund's sustainability criteria reduce the benchmark investable universe by a minimum of 20%.
- Financial derivative instruments, money-market instruments and cash may not adhere to the Fund's sustainability criteria.

Management Process

- The Fund is actively managed.
- Through the application of this approach, the Fund commits to having a minimum of 50% in Sustainable Investments. It also targets an ESG rating that is equal to or better, and a meaningfully lower carbon intensity, than the benchmark.
- Sustainable leaders are viewed as companies with strong operational management of ESG risks or products and services which address global environmental and societal challenges, whilst Sustainable improvers are typically companies with average governance, ESG risk management practices and disclosure with potential for improvement.
- Engagement with external company management teams is used to evaluate the ownership structures, governance and management quality of those companies in order to inform portfolio construction.
- The benchmark is also used as a reference point for portfolio construction and as a basis for setting risk constraints, but does not incorporate any sustainable criteria.
- In order to achieve its objective, the Fund will take positions whose weightings diverge from the benchmark and may invest in securities which are not included in the benchmark. The investments of the Fund may deviate significantly from the components of and their respective weightings in the benchmark.
- Due to the active and sustainable nature of the management process, the Fund's performance profile may deviate significantly from that of the benchmark.

Derivatives and Techniques

- The Fund may utilise financial derivative instruments for hedging and/or investment purposes, or to manage foreign exchange risks. The use of derivatives for hedging and/or investment purposes is expected to be very limited, mainly in those cases where there are significant inflows into the Fund so that cash can be invested while the Fund's investments in equity and equity related securities is maintained.

This fund is subject to Article 8 of the Sustainable Finance Disclosure Regulation (“SFDR”).

Investors in the fund may buy and sell shares on any dealing day (as defined in the Prospectus). If you invest in income shares, income from investments in the fund will be paid out to you. If you invest in accumulation shares, income will be added to the value of your shares.

Intended Retail Investor

Investors with basic investment knowledge. Investors who can accept large short term losses. Investors wanting growth and income over the longer term (5 years or more). Investors with a specific need around a sustainability-related outcome. The Fund has specific and generic risks with a risk rating as per the risk indicator. The Fund is intended for general sale to retail and professional investors through all distribution channels with or without professional advice.
The Fund's depositary is Citibank Europe plc Luxembourg Branch. The prospectus, the articles of association, the annual reports and interim reports may be obtained free of charge from our website or via the contact details in ‘Other relevant information’. All documents are available in English and German; the prospectus is also available in French and Italian. What are the risks and what could I get in return?

Risk Indicator

1	2	3	4	5	6	7

Lower risk **Higher risk**

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you sell it at an earlier stage. The value of investments and the income from them can go down as well as up, and you may get back less than you invested.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
We have classified this product as 5 out of 7, which a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.
Where the currency of the country where you are resident is different to the currency of the product, **please be aware of currency risk**. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
Further information on risks is detailed in the prospectus available at www.abrdn.com or on request from the management company.
This product does not include any protection from future market performance or any capital guarantee against credit risk, so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.
The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:
- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested.

	If you exit after 1 year	**If you exit after 5 years**
Total costs	716 EUR	1,514 EUR
Annual cost impact (*)	7.2%	3.2% each year

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.4% before costs and -2.7% after costs.
We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
