ISIN: LU1881883547

Website: [www.aberdeeninvestments.com](http://www.aberdeeninvestments.com)

Telephone: (+352) 46 40 10 820

This fund is managed by abrdn Investments Luxembourg S.A., a firm authorised and regulated by the Commission de Surveillance du Secteur Financier (CSSF) in Luxembourg.

Document published: 26/3/2026

## What is this product?

### Type

China Onshore Bond Fund (the "Fund") is a Offshore Renminbi (CNH) denominated sub-fund of a SICAV (société d'investissement à capital variable), abrdn SICAV I, incorporated in Luxembourg.

### Term

abrdn SICAV I (the "Company") has no maturity date. The Fund and the Company may not be unilaterally terminated by abrdn Investments Luxembourg S.A.

### Objective

The Fund aims to achieve a combination of income and growth by investing in bonds (which are like loans that can pay a fixed or variable interest rate) issued by governments, government related bodies and/or corporations in Mainland China, priced in Onshore Renminbi (CNY).

The Fund aims to outperform the FTSE Chinese Government Bond Index (CNH) benchmark (before charges).

### Portfolio Securities

- The Fund invests at least two-thirds of its assets in bonds issued by Mainland China issuers, priced in Onshore Renminbi (CNY).
- The Fund may invest up to 100% of its assets in Mainland Chinese bonds.
- The Fund may also invest in bonds priced in Offshore Renminbi (CNH) issued anywhere in the world, as well as bonds priced in other currencies which are issued by Chinese issuers.
- The Fund will not purchase securities that are rated below B- by Standard & Poor's or equivalent from another rating agency.
- Investment in bonds will adhere to the ESG criteria detailed in the Fund's "Sustainability related disclosures", which is published at [www.aberdeeninvestments.com](http://www.aberdeeninvestments.com) under "Fund Centre".
- Aberdeen Investments' Overall Sustainability Assessment (OSA) provides an overall view on a company's sustainability based on scoring of its governance, operations, and products and/or services. To complement this the Investment Manager's fixed income investment process is utilised, which enables portfolio managers to qualitatively assess how ESG factors are likely to impact on the company's ability to repay its debt, both now and in the future. Companies considered to be exposed to the highest ESG risks will be excluded. In addition, a set of company exclusions are applied, which are related to the UN Global Compact, Controversial Weapons, Tobacco Manufacturing and Thermal Coal.
- Green bonds, Social bonds or Sustainable bonds issued by companies excluded by the thermal coal exclusions are permitted, where the proceeds of such issues can be confirmed as not financing this activity.
- For government bonds, this approach evaluates the Environmental, Social, Governance and Political ("ESGP") characteristics of sovereign issuers, which results in an ESGP score being assigned to each issuer. In addition, a qualitative Direction of Travel assessment is conducted, allowing portfolio managers to identify where ESGP weaknesses are being adequately addressed by the issuer and this is not reflected in the data.
- Financial derivative instruments, money-market instruments and cash may not adhere to the Fund's ESG criteria.

### Management Process

- The Fund is actively managed.
- Through the application of the Fund's ESG criteria, the Fund commits to having a minimum of 5% in Sustainable Investments.
- Engagement with external company management teams is used to evaluate the ownership structures, governance and management quality of those companies, in order to inform portfolio construction. As part of this, where a company fails the thermal coal exclusion but is identified as having a clear and credible action plan to mitigate the adverse impact associated with these activities, the company will be deemed investable. This is to support their transition to ultimately comply with the thermal coal exclusions. Up to 5% of assets may be invested in such companies.
- The benchmark is also used as a basis for setting risk constraints but is not used as a reference for portfolio construction.
- In order to achieve its objective, the Fund will take positions whose weightings diverge from the benchmark or invest in securities which are not included in the benchmark. The investments of the Fund may deviate significantly from the components of and their respective weightings in the benchmark.
- The Investment Manager seeks to reduce the risk of significant changes in the value of the Fund compared to the benchmark. The potential change in value of the Fund (as measured by expected volatility) is not ordinarily expected to exceed 150% of the potential change in value of the benchmark over the longer term.

### Derivatives and Techniques

- The Fund may use investment techniques (including Derivatives) to seek to protect and enhance the value of the Fund and to manage the Fund's risks. Derivatives, such as futures, options and swaps, are linked to the rise and fall of other assets. In other words, they 'derive' their price from another asset. They can generate returns when share prices and/or indices fall.

### This fund is subject to Article 8 of the Sustainable Finance Disclosure Regulation ("SFDR").

Investors in the fund may buy and sell shares on any dealing day (as defined in the Prospectus). If you invest in income shares, income from investments in the fund will be paid out to you. If you invest in accumulation shares, income will be added to the value of your shares.

### Intended Retail Investor

Investors with basic investment knowledge. Investors who can accept large short term losses. Investors wanting an income and some growth over the longer term (5 years or more). The Fund has specific and generic risks with a risk rating as per the risk indicator. The Fund is intended for general sale to retail and professional investors through all distribution channels with or without professional advice.

The Fund's depository is Citibank Europe plc Luxembourg Branch. The prospectus, the articles of association, the annual reports and interim reports may be obtained free of charge from our website or via the contact details in 'Other relevant information'. All documents are available in English and German; the prospectus is also available in French and Italian. For further information about abrdn SICAV I, including the latest share prices, please visit [www.aberdeeninvestments.com](http://www.aberdeeninvestments.com).

## What are the risks and what could I get in return?

### Risk Indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower risk Higher risk

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you sell it at an earlier stage. The value of investments and the income from them can go down as well as up, and you may get back less than you invested.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Where the currency of the country where you are resident is different to the currency of the product, **please be aware of currency risk**. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Further information on risks is detailed in the prospectus available at [www.aberdeeninvestments.com](http://www.aberdeeninvestments.com) or on request from the management company. This product does not include any protection from future market performance or any capital guarantee against credit risk, so you could lose some or all of your investment.

## Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		10,000 CNH	
		If you exit after 1 year	If you exit after 5 years
<b>Scenarios</b>			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	8,560 CNH	8,160 CNH
	Average return each year	-14.4%	-4.0%
Unfavourable	What you might get back after costs	9,450 CNH	10,030 CNH
	Average return each year	-5.5%	0.1%
Moderate	What you might get back after costs	10,350 CNH	11,930 CNH
	Average return each year	3.5%	3.6%
Favourable	What you might get back after costs	11,230 CNH	12,430 CNH
	Average return each year	12.3%	4.4%

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred in the benchmark between February 2025 and February 2026. The moderate scenario occurred in the benchmark between May 2020 and April 2025. The favourable scenario occurred in the benchmark between January 2020 and December 2024.

## What happens if the Company is unable to pay out?

There is no financial compensation scheme for retail investors in SICAVs domiciled in Luxembourg. In the absence of a compensation scheme applicable to investments in the Fund, investors may face a financial loss of up to their entire investment amount.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- 10,000 CNH is invested.

	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	16 CNH	99 CNH

<b>Annual cost impact (*)</b>	0.2%	0.2% each year
-------------------------------	------	----------------

\* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.8% before costs and 3.6% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

### Composition of costs

<b>One-off costs upon entry or exit</b>		<b>If you exit after 1 year</b>
Entry costs	We do not charge an entry fee for this product.	0 CNH
Exit costs	We do not charge an exit fee for this product.	0 CNH
<b>Ongoing costs taken each year</b>		
Management fees and other administrative or operating costs	0.14% of the value of your investment per year. This is an estimate based on actual costs over the last year and includes any known future changes.	14 CNH
Transaction costs	0.02% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	2 CNH
<b>Incidental costs taken under specific conditions</b>		
Performance fees	There is no performance fee for this product.	

## How long should I hold it and can I take money out early?

### Recommended holding period: 5 years

This product has no required minimum holding period but you should have an investment time horizon of at least 5 years. You may buy or sell shares in the product, without penalty, on any normal business day as set out in the prospectus. Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the purchase or sale of the shares.

### How can I complain?
