

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Artemis Funds (Lux) – US Extended Alpha (the "fund")

A sub-fund of Artemis Funds (Lux). The management company is FundRock Management Company S.A.

ISIN:	LU1922101784
Class:	I accumulation shares, CHF hedged

This key investor information document is accurate as at 07 February 2025.

OBJECTIVES AND INVESTMENT POLICY

Objective

To increase the value of shareholders' investments primarily through capital growth.

Investment policy

- The fund is actively managed.
- The fund invests principally in equities and equity-related derivatives of companies that are listed, headquartered or that exercise the predominant part of their economic activities in the USA.
- The fund may not invest in companies (either directly or indirectly via derivatives) with exposure to tobacco, weapons, or thermal coal, subject to revenue thresholds set out in the fund's prospectus, or in companies that the manager determines to be in breach of the United Nations Global Compact principles on human rights, labour rights, the environment and anti-corruption.
- The fund promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR. More information about the environmental or social characteristics for this fund is available in the pre-contractual disclosure for financial products referred to in Article 8 under SFDR in the fund's prospectus.
- The fund makes use of derivatives for investment purposes to take both long and short positions in individual companies. At times, the fund may also use equity index futures and/or options (long or short) in order to vary the level of volatility and/or market exposure in the fund.
- Total derivatives (longs and shorts) are likely to represent a significant proportion of the fund's gross exposure to companies, which will typically lie in a range of 130-160% of Net Asset Value but which may potentially be as high as 200%. The Investment Manager uses derivatives to select stocks that may benefit from falling, as well as rising, share prices. However the fund's ability to have a gross exposure to companies of more than 100% of its Net Asset Value means that the fund has the potential both to generate greater returns and to experience greater losses than if the fund was restricted to a gross exposure of 100% of its Net Asset Value.
- The fund's net exposure to companies will typically lie in the range of 85-110% (longs minus shorts) depending on market conditions.
- At times the fund may invest in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect. Investments in China A-shares shall not exceed 10% of the fund's Net Asset Value.
- The fund may also use derivatives and other techniques for hedging and for efficient portfolio management.
- The fund's derivatives may include, but are not limited to, contracts for difference, futures, options, swaps and forward currency contracts.
- A significant proportion of the Net Asset Value of the fund will be held in cash due to the level of derivative use.
- Subject to the limits set out in the 'Investment Restrictions' section of the fund's prospectus, the fund may also hold ancillary liquid assets for treasury purposes.
- Subject to the limits set out in the 'Investment Restrictions' section of the fund's prospectus, the fund may invest in bank deposits, money market instruments and money market funds in order to achieve its investment goals, for treasury purposes and in case of unfavourable market conditions. In order to allow the fund to be able to manage counterparty risk, the Fund may also invest its cash in government securities. These securities will generally be less than 1 year maturity.
- The fund may invest up to 10% of its Net Asset Value in other collective investment schemes.

Benchmark information

S&P 500 TR CHF Hedged

The benchmark is a point of reference against which the performance of the Fund may be measured. Management of the Fund is not restricted by this benchmark. The deviation from the benchmark may be significant and the portfolio of the Fund may at times bear little or no resemblance to its benchmark.

Other information

Class hedging: The costs and benefits of currency hedging transactions will apply to hedged classes. This includes the costs of hedging and the allocation of any gains and losses resulting from the hedging transactions.

Dealing frequency: Normally Monday to Friday except Luxembourg public holidays and non-dealing days. Visit www.artemisfunds.com/non-dealing-days for more information. Instructions received before 13:00 CET will be processed at 16:00 CET on the same day.

Distribution policy: This is an accumulation class. Income received is reinvested in the value of the fund.

RISK AND REWARD PROFILE

- The fund is in the category shown due to historic volatility (how much and how quickly the value of shares in the fund may have risen and fallen in the past due to movements in markets, currencies and interest rates). It may not be a reliable indication of the future risk profile of the fund.
- The risk category has been calculated using historic data and may not be a reliable indicator of the fund's future risk profile.
- A risk indicator of "1" does not mean that the investment is "risk free".

Risk indicator number is accurate as at: 31 December 2024.

The risk indicator may not fully take into account the following risks and the following may affect fund performance:

Market volatility risk: The value of the fund and any income from it can fall or rise because of movements in stockmarkets, currencies and interest rates, each of which can move irrationally and be affected unpredictably by diverse factors, including political and economic events.

Currency risk: The fund's assets may be priced in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the fund's value.

Derivatives risk: The fund may invest in derivatives with the aim of profiting from falling ('shorting') as well as rising prices. Should the asset's value vary in an unexpected way, the fund value will reduce.

Leverage risk: The fund may operate with a significant amount of leverage. Leverage occurs when the economic exposure created by the use of derivatives is greater than the amount invested. A leveraged portfolio may result in large fluctuations in its value and therefore entails a high degree of risk including the risk that losses may be substantial.

ESG risk: The fund may select, sell or exclude investments based on ESG criteria; this may lead to the fund underperforming the broader market or other funds that do not apply ESG criteria. If sold based on ESG criteria rather than solely on financial considerations, the price obtained might be lower than that which could have been obtained had the sale not been required.

Charges from capital risk: Where charges are taken wholly or partly out of a fund's capital, distributable income may be increased at the expense of capital, which may constrain or erode capital growth.

Please refer to the fund's prospectus for full details of these and other risks, including sustainability risks, which are applicable to this fund.

ARTEMIS
The PROFIT Hunter

CHARGES FOR THE FUND

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	0.910%
-----------------	--------

Charges taken from the fund under certain specific conditions

	20.00% of the share class outperformance against the S&P 500 TR CHF Hedged. See the prospectus for more details. In the fund's last financial year the actual performance fee was 0.00% of the fund.
Performance fee	

- The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. The charges reduce the potential growth of your investment.
- The ongoing charges figure is an estimate rather than a historic figure because this better reflects the expected future charges. The charges may vary from year to year. The exact charges made for each financial year are contained in the fund's annual report.
- The benchmark used to calculate the performance fee is provided by an administrator on the ESMA register of benchmarks or UK Benchmarks Register which includes details of all authorised, registered, recognised and endorsed EU, UK and third country benchmark administrators together with their regulator.
- The fund management fee is taken from capital.

For more information about charges, please see the fund's prospectus, which is available at www.artemisfunds.com or www.fundinfo.com.

Charges are accurate as at: 31 October 2024, unless specified.

PAST PERFORMANCE

- I accumulation shares, CHF hedged
- S&P 500 TR CHF Hedged

- Past performance is net of all charges except any costs incurred when investors buy or sell the fund.
- How the fund has performed in the past is not a guide to how it will perform in the future.
- Performance is calculated in Swiss francs.
- Fund launch date: 6 November 2018.
- Class launch date: 7 March 2019.

Past performance is accurate as at: 31 December 2024.

PRACTICAL INFORMATION

Depositary: Northern Trust Global Services SE.

Further information: Can be obtained from the fund's prospectus and the latest annual and half-yearly reports. The documents are in English and available free of charge. These can be found, along with other information such as the price of the fund's classes by contacting Artemis or visiting www.fundinfo.com.

Sub-fund assets: The assets of each sub-fund belong exclusively to it and are not available to meet the liabilities of any other subfund of Artemis Funds (Lux).

Remuneration policy: Information about Artemis' remuneration policy is available at www.artemisfunds.com; a paper copy is available free of charge on request.

Tax legislation: Luxembourg tax legislation that applies to the fund may have an impact on your personal tax position.

Liability: Artemis Investment Management LLP may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus for the fund.

Glossary: For more information about some of the terms used in this document, please visit www.artemisfunds.com/glossary.
