

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Artemis Funds (Lux) – Global High Yield Bond (the "fund")

A sub-fund of Artemis Funds (Lux). The management company is FundRock Management Company S.A.

ISIN:	LU2031175156
Class:	I accumulation shares, USD

This key investor information document is accurate as at 07 February 2025.

OBJECTIVES AND INVESTMENT POLICY

Objective

The fund aims to increase the value of shareholders' investments through a combination of income and capital growth.

Investment policy

- The fund is actively managed.
- The fund may invest in the bonds of any type of issuer (for example government or corporates) with no restriction on economic or geographic areas (including emerging markets).
- The fund will invest at least 80% in high yield bonds, which either (a) have been given a credit rating of either: (i) Ba1 or lower by Moody's; (ii) BB+ or lower by Standard & Poor's; or (iii) BB+ or lower by Fitch; or (b) have not been rated but which the Investment Manager believes would, if they were rated, be given a comparable credit rating.
- The fund may not invest in corporate bonds issued by companies (either directly or indirectly via derivatives) with exposure to tobacco, nuclear power, weapons, fossil fuels, subject to revenue thresholds set out in the fund's prospectus, or companies that the manager determines to be in breach of the United Nations Global Compact principles on human rights, labour rights, the environment and anti-corruption.
- The fund promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR. More information about the environmental or social characteristics for this fund is available in the pre-contractual disclosure for financial products referred to in Article 8 under SFDR in the fund's prospectus.
- In addition to purchasing high yield bonds, the fund may use derivatives and other techniques for investment, hedging and for efficient portfolio management. The fund's derivatives may include, but are not limited to, futures, forward currency contracts, credit default swaps (single name and indices) and interest rate swaps. In particular, the Investment Manager intends to hedge the fund's base currency against the currencies in which the underlying assets of the fund are denominated. There may be certain currency exposures where it is impractical or not cost effective to apply the portfolio hedge, but the intention is that the fund will operate a target hedge ratio of 100%.
- In the event that any bonds held by the fund are subject to a restructuring process, the fund will be permitted to invest in new bonds or equity securities issued as part of the reorganisation process.
- The fund may invest up to 10% of its assets in each of the following:
 - asset-backed securities and mortgage-backed securities;
 - distressed/defaulted bonds; and
 - other collective investment schemes.
- The fund may invest up to 20% of its assets in each of the following:
 - contingent convertible bonds; and
 - more speculative high yield bonds, where they carry a credit rating from Moody's, Standard & Poor's or Fitch, that have been given ratings whereby none are at or above B- (for Standard & Poor's and Fitch) or B3 (for Moody's) not qualifying as distressed/defaulted bonds at the time of purchase.
- Subject to the limits set out in the 'Investment Restrictions' section of the fund's prospectus, the fund may also hold ancillary liquid assets for treasury purposes.
- Subject to the limits set out in the 'Investment Restrictions' section of the fund's prospectus, the fund may invest in bank deposits, money market instruments and money market funds in order to achieve its investment goals, for treasury purposes and in case of unfavourable market conditions.

Benchmark information

ICE BofA Merrill Lynch Global High Yield Constrained USD Hedged Index

The benchmark is a point of reference against which the performance of the Fund may be measured. Management of the Fund is not restricted by this benchmark. The deviation from the benchmark may be significant and the portfolio of the Fund may at times bear little or no resemblance to its benchmark. The benchmark does not take into account environmental and/or social characteristics promoted by the Fund.

Other information

Dealing frequency: Normally Monday to Friday except Luxembourg public holidays and non-dealing days. Visit www.artemisfunds.com/non-dealing-days for more information. Instructions received before 13:00 CET will be processed at 16:00 CET on the same day.

Distribution policy: This is an accumulation class. Income received is reinvested in the value of the fund.

RISK AND REWARD PROFILE

- The fund is in the category shown due to historic volatility (how much and how quickly the value of shares in the fund may have risen and fallen in the past due to movements in markets, currencies and interest rates). It may not be a reliable indication of the future risk profile of the fund.
- The risk category has been calculated using historic data and may not be a reliable indicator of the fund's future risk profile.
- A risk indicator of "1" does not mean that the investment is "risk free".

Risk indicator number is accurate as at: 31 December 2024.

The risk indicator may not fully take into account the following risks and the following may affect fund performance:

Market volatility risk: The value of the fund and any income from it can fall or rise because of movements in stockmarkets, currencies and interest rates, each of which can move irrationally and be affected unpredictably by diverse factors, including political and economic events.

Bond liquidity risk: The fund holds bonds which could prove difficult to sell. As a result, the fund may have to lower the selling price, sell other investments or forego more appealing investment opportunities.

Derivatives risk: The fund may invest in derivatives with the aim of profiting from falling ('shorting') as well as rising prices. Should the asset's value vary in an unexpected way, the fund value will reduce.

Credit risk: Investments in bonds are affected by interest rates, inflation and credit ratings. It is possible that bond issuers will not pay interest or return the capital. All of these events

can reduce the value of bonds held by the fund.

Higher-yielding bonds risk: The fund may invest in higher-yielding bonds, which may increase the risk to capital. Investing in these types of assets (which are also known as sub-investment grade bonds) can produce a higher yield but also brings an increased risk of default, which would affect the capital value of the fund.

Counterparty risk: Investments such as derivatives are made using financial contracts with third parties. Those third parties may fail to meet their obligations to the fund due to events beyond the fund's control. The fund's value could fall because of loss of monies owed by the counterparty and/or the cost of replacement financial contracts.

Charges from capital risk: Where charges are taken wholly or partly out of a fund's capital, distributable income may be increased at the expense of capital, which may constrain or erode capital growth.

Emerging markets risk: Compared to more established economies, investments in emerging markets may be subject to greater volatility due to differences in generally accepted accounting principles, less governed standards or from economic or political instability. Under certain market conditions assets may be difficult to sell.

Currency hedging risk: The fund hedges with the aim of protecting against unwanted changes in foreign exchange rates. The fund is still subject to market risks, may not be completely protected from all currency fluctuations and may not be fully hedged at all times. The transaction costs of hedging may also negatively impact the fund's returns.

ESG risk: The fund may select, sell or exclude investments based on ESG criteria; this may lead to the fund underperforming the broader market or other funds that do not apply ESG criteria. If sold based on ESG criteria rather than solely on financial considerations, the price obtained might be lower than that which could have been obtained had the sale not been required.

Income risk: The payment of income and its level is not guaranteed.

Please refer to the fund's prospectus for full details of these and other risks, including sustainability risks, which are applicable to this fund.

CHARGES FOR THE FUND

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.510%
Charges taken from the fund under certain specific conditions	
Performance fee	None

- The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. The charges reduce the potential growth of your investment.
- The ongoing charges figure is an estimate rather than a historic figure because this better reflects the expected future charges. The charges may vary from year to year. The exact charges made for each financial year are contained in the fund's annual report.
- The fund management fee is taken from capital.

For more information about charges, please see the fund's prospectus, which is available at www.artemisfunds.com or www.fundinfo.com.
Charges are accurate as at: 31 October 2024, unless specified.

PAST PERFORMANCE

- I accumulation shares, USD
 - ICE BofA Merrill Lynch Global High Yield Constrained USD Hedged Index
 - Past performance is net of all charges except any costs incurred when investors buy or sell the fund.
 - How the fund has performed in the past is not a guide to how it will perform in the future.
 - Performance is calculated in US dollars.
 - Fund launch date: 13 November 2019.
 - Class launch date: 13 November 2019.
- Past performance is accurate as at: 31 December 2024.

PRACTICAL INFORMATION

Depository: Northern Trust Global Services SE.
