

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

ASI-CCBI Belt & Road Bond Fund, a US Dollar denominated sub fund of the Aberdeen Standard SICAV I, K Acc USD Shares (ISIN: LU2237417626). This fund is managed by abrdn Investments Luxembourg S.A.

OBJECTIVES AND INVESTMENT POLICY

Investment Objective

The Fund aims to achieve a combination of income and growth by investing in bonds (which are like loans that can pay a fixed or variable interest rate) issued by companies, governments or other bodies, which in the view of the Investment Manager, could directly or indirectly benefit from the Belt and Road Initiative.

The Belt and Road Initiative is a systematic initiative and global development strategy launched by the Chinese government in 2013 to promote the land and sea connectivity along Asia, Europe, Middle-East, and Africa and their adjacent seas (i.e. the Belt and Road Region) to establish and strengthen economic partnerships and cooperation along these regions.

Investment Policy

Portfolio Securities

- The Fund invests at least two-thirds of its assets in bonds issued by government or government-related bodies and/or corporations which, in the view of the Investment Manager, could directly or indirectly benefit from the Belt and Road Initiative.
- The bonds will be of any maturity or credit quality. The Fund may invest up to 100% in Sub-Investment Grade bonds.
- The Fund will invest at least 80% of its assets in bonds denominated in US Dollars. Bonds denominated in other currencies will typically be hedged back to US Dollars.

Management Process

- The Fund is actively managed and does not use a benchmark for portfolio construction, risk management or performance assessment purposes.
- The Investment Manager will aim to diversify country exposure but may at times hold a significant proportion in bonds issued by the Chinese government, government-related bodies or Chinese companies.
- CCB International Asset Management Limited, ("CCBI") has been appointed as investment advisor with respect to the Fund and provides non-binding investment advice in connection with the Belt and Road Initiative.
- Our investment team will seek to reduce the risk of losses and the

- expected change (as measured by annual volatility) in the value of the Fund is not ordinarily expected to exceed 10%.
- The Investment Manager will review each investment on its own merits and how it is aligned with and expected to benefit from China's Belt and Road initiative. The Investment Manager will assess how the countries and companies exposed to the Belt and Road Region with their respective economies, resources and businesses will cooperate and mutually complement each other in different areas or sectors.
  - abrdn integrate environmental, social and governance (ESG) considerations within the investment process. Details of the Fixed Income ESG Integration Approach are published at [www.abrdn.com](http://www.abrdn.com) under "Sustainable Investing".
- Derivatives and Techniques**
- Derivatives will only be used for hedging or to provide exposures that could be achieved through investment in the assets in which the Fund is primarily invested. Usage of derivatives is monitored to ensure that the Fund is not exposed to excessive or unintended risks. Investors in the fund may buy and sell shares on any dealing day (as defined in the Prospectus).
- If you invest in income shares, income from investments in the fund will be paid out to you. If you invest in accumulation shares, income will be added to the value of your shares.
- Recommendation: the fund may not be appropriate for investors who plan to withdraw their money within five years. Investors should satisfy themselves that their attitude to risk aligns with the risk profile of this fund before investing.

RISK AND REWARD PROFILE

This indicator reflects the volatility of the fund's share price over the last five years which in turn reflects the volatility of the underlying assets in which the fund invests. Historical data may not be a reliable indication for the future.

The current rating is not guaranteed and may change if the volatility of the assets in which the fund invests changes. The lowest rating does not mean risk free.

The fund is rated as 4 because of the extent to which the following risk factors apply:

- The fund invests in securities which are subject to the risk that the issuer may default on interest or capital payments.
- The fund's price can go up or down daily for a variety of reasons including changes in interest rates, inflation expectations or the perceived credit quality of individual countries or securities.
- The fund invests in high yielding bonds which carry a greater risk of default than those with lower yields.
- The fund invests in emerging market equities and / or bonds. Investing in emerging markets involves a greater risk of loss than investing in more developed markets due to, among other factors, greater political, tax, economic, foreign exchange, liquidity and regulatory risks.
- Investing via Bond Connect involves special considerations and risks, including without limitation a less developed regulatory and legal framework, operational, title and regulatory risks.
- A concentrated portfolio may be more volatile and less liquid than a more broadly diversified one. The fund's investments are concentrated in a particular country or sector.
- The use of derivatives carries the risk of reduced liquidity, substantial loss and increased volatility in adverse market conditions, such as a failure amongst market participants. The use of derivatives may result in the fund being leveraged (where market exposure and thus the potential for loss by the fund exceeds the amount it has invested) and

in these market conditions the effect of leverage will be to magnify losses.

All investment involves risk. This fund offers no guarantee against loss or that the fund's objective will be attained.

The price of assets and the income from them may go down as well as up and cannot be guaranteed; an investor may receive back less than their original investment.

Inflation reduces the buying power of your investment and income.

The value of assets held in the fund may rise and fall as a result of exchange rate fluctuations.

The fund could lose money if an entity (counterparty) with which it does business becomes unwilling or unable to honour its obligations to the fund.

In extreme market conditions some securities may become hard to value or sell at a desired price. This could affect the fund's ability to meet redemptions in a timely manner.

The fund could lose money as the result of a failure or delay in operational processes and systems including but not limited to third party providers failing or going into administration.

Where the share class is described as "hedged", currency hedging techniques are used which will reduce, but not eliminate, exchange rate risk. In particular, the currency being hedged is not necessarily related to the currencies within the fund. Such techniques also give rise to additional risks and costs.

## CHARGES

The charges you pay are used to pay the costs of running the fund including marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

### Charges taken from the fund over a year

Ongoing charges	0.46%
-----------------	-------

### Charges taken from the fund under certain specific conditions

Performance fee	0.00%
-----------------	-------

The entry and exit charges shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser. The ongoing charges figure is at 30/09/2022. It excludes: performance fees (where applicable); portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling in another collective investment undertaking. A switching charge may be applied in accordance with the Prospectus. For more information about charges, please see the Prospectus which is available at [www.abrdn.com](http://www.abrdn.com).

## PAST PERFORMANCE

ASI-CCBI Belt & Road Bond Fund, K Acc USD Shares, 31 December 2022

% Returns

Past performance is not a guide to future performance. Performance is net of charges and does not take into account any entry, exit or switching charges but does take into account the ongoing charge, as shown in the Charges section. Performance is calculated in USD. The fund was launched in 2020. The share/unit class was launched in 2020.
