Artemis Funds (Lux) – Leading Consumer Brands (the "fund")

A sub-fund of Artemis Funds (Lux). The management company is FundRock Management Company S.A.

ISIN:	LU2698445587
Class:	I accumulation shares, EUR

This key investor information document is accurate as at 07 February 2025.

OBJECTIVES AND INVESTMENT POLICY

Objective

To increase the value of shareholders' investments primarily through capital growth over a five year period

Investment policy

- The fund is actively managed.
- The fund invests principally (at least 80% of its assets) in companies selected on a worldwide basis (including in emerging markets) which are considered by the Investment Manager to own or operate leading consumer brands. These are consumer-facing businesses which, through their heritage, innovation and investment have developed market-leading brands in the category (or categories) in which they operate. The investment manager believes that these brands provide an enduring competitive advantage which allows them to earn customer loyalty, strong pricing power and high margins. The investment manager expects these companies to benefit from long-term structural trends in consumer spending. The fund will not be constrained to any sector.
- It is expected that the portfolio of the fund will be invested in equities of between 25 and 50 companies.
- The fund may not invest in companies (either directly or indirectly via derivatives) with exposure to tobacco, gambling, weapons, or fossil fuels, subject to revenue thresholds set out in the fund's prospectus, or in companies that the manager determines to be in breach of the United Nations Global Compact principles on human rights, labour rights, the environment and anti-corruption.
- The fund promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR. More information about the environmental or social characteristics for this fund is available in the precontractual disclosure for financial products referred to in Article 8 under SFDR in the fund's Prospectus.
- At times the fund may invest in ADRs, GDRs and participatory notes. Participatory notes would be used to access markets where direct access to purchase equities may be difficult. Their use is not intended to create leverage. Investments in participatory notes shall not individually exceed 10% of the fund's Net Asset Value.
- The fund may invest up to 20% of its Net Asset Value in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect.
- The fund may use derivatives and other techniques for hedging and for efficient portfolio management. The fund's derivatives may include, but are not limited to, futures, forward currency contracts and contracts for difference.
- Subject to the limits set out in the 'Investment Restrictions' section of the fund's prospectus, the fund may also hold ancillary liquid assets for treasury purposes.
- Subject to the limits set out in the 'Investment Restrictions' section of the fund's prospectus, the fund may also invest in bank deposits, money market instruments and money market funds in order to achieve its investment goals, for treasury purposes and in case of unfavourable market conditions. Higher levels of investments in bank deposits, money market instruments or money market funds may be held in periods of elevated equity market valuations to reduce risk.
- The fund may invest up to 10% of its Net Asset Value in other collective investment schemes.

Benchmark information

MSCI AC World Index EUR

The benchmark is a point of reference against which the performance of the Fund may be measured. Management of the Fund is not restricted by this benchmark. The deviation from the benchmark may be significant and the portfolio of the Fund may at times bear little or no resemblance to its benchmark. The benchmark does not take into account environmental and/or social characteristics promoted by the Fund.

Other information

Dealing frequency: Normally Monday to Friday except Luxembourg public holidays and non-dealing days. Visit www.artemisfunds.com/non-dealing-days for more information. Instructions received before 13:00 CET will be processed at 16:00 CET on the same day.

Distribution policy: This is an accumulation class. Income received is reinvested in the value of the fund.

RISK AND REWARD PROFILE

- The fund is in the category shown due to historic volatility (how much and how quickly the value of shares in the fund may have risen and fallen in the past due to movements in markets, currencies and interest rates). It may not be a reliable indication of the future risk profile of the fund.
- The risk category has been calculated using historic data and may not be a reliable indicator of the fund's future risk profile.
- A risk indicator of "1" does not mean that the investment is "risk free".

Risk indicator number is accurate as at: 31 December 2024.

The risk indicator may not fully take into account the following risks and the following may affect fund performance:

Market volatility risk: The value of the fund and any income from it can fall or rise because of movements in stockmarkets, currencies and interest rates, each of which can move irrationally and be affected unpredictably by diverse factors, including political and economic events.

Currency risk: The fund's assets may be priced in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the fund's

value.

Emerging markets risk: Compared to more established economies, investments in emerging markets may be subject to greater volatility due to differences in generally accepted accounting principles, less governed standards or from economic or political instability. Under certain market conditions assets may be difficult to sell.

Charges from capital risk: Where charges are taken wholly or partly out of a fund's capital, distributable income may be increased at the expense of capital, which may constrain or erode capital growth.

China risk: The fund can invest in China A-shares (shares traded on Chinese stock exchanges in Renminbi). There is a risk that the fund may suffer difficulties or delays in enforcing its rights in these shares, including title and assurance of ownership.

ESG risk: The fund may select, sell or exclude investments based on ESG criteria; this may lead to the fund underperforming the broader market or other funds that do not apply ESG criteria. If sold based on ESG criteria rather than solely on financial considerations, the price obtained might be lower than that which could have been obtained had the sale not been required.

Sector and concentration risk: As the fund has a theme of investing only in companies that own or operate leading consumer brands, it may have investments concentrated in a limited number of holdings. This can be riskier than holding a large number of investments from a wide range of sectors.

Please refer to the fund's prospectus for full details of these and other risks, including sustainability risks, which are applicable to this fund.

CHARGES FOR THE FUND

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.910%
